

Instinet Offers Integrated Access to Luminex Buyside Liquidity Tools through Newport[®] 3

NEW YORK – May 3, 2016 – Instinet Incorporated (Instinet) today announced that its US brokerage subsidiary, Instinet, LLC, now offers buyside clients access to Luminex Trading & Analytics' full suite of products through Newport 3, Instinet's award winning global EMS.

Newport users may now search for large institutional blocks of liquidity by electing to expose shares to Luminex. They may access the full suite of Luminex ATS tools to auto-execute orders and 'size up' on conditional (blotter sweep) shares. The integrated offering heralds the next generation of blotter registration and offers buyside investors the opportunity for greater oversight of their trading exposure.

Instinet, LLC worked closely with Luminex since before its launch in October, 2015. Newport is one of the first broker-neutral EMS platforms to provide the buyside access to the full suite of Luminex products, which is the culmination of understanding and listening to client demand. This recently completed integration creates a new potential opportunity in the marketplace for the buyside investor.

"We are delighted to have worked closely with Instinet, LLC to address how its clients could more easily take advantage of access to our complete offerings," said Jonathan A. Clark, CEO of Luminex. "Luminex was created to provide the buyside community with a more efficient, lower cost and transparent block trading experience. As we grow, we will continue to evaluate ways to enhance our overall customer experience, and deliver on our commitment to provide innovative, transparent and collaborative solutions to our customers in the years ahead."

"Instinet's collaborative efforts to allow client access to Luminex demonstrates our commitment to drive innovation, while understanding what our clients need. During this integration we took clients' valued input and feedback and applied it to Newport's redesigned workflow. We're excited to give the buyside a new choice when it comes to selecting the tools that help them better achieve their trading goals," said Jonathan Kellner, CEO, Instinet Incorporated.

As an agency-focused broker-dealer with a global broker-neutral EMS, Instinet, LLC prides itself on offering investors the access necessary to source all their liquidity needs, and its ability to offer solutions for those investors as they navigate today's trading environment.

About Newport[®] 3

Clients of Instinet's brokerage subsidiaries worldwide use Newport. With it, users are able to access more than 150 multi-asset liquidity sources and several hundred broker-neutral destinations globally, as well as an advanced suite of customizable execution tools and integrated analytics capabilities.

About Luminex

Luminex Trading & Analytics LLC is an independent trading venue that seeks to offer low-cost trading and superior execution quality with minimal information leakage by interacting only with venue-approved participants. Luminex's collaborative approach intends to improve trust, liquidity, and control, helping buy-side traders execute large block trades with little market impact. The company is guided by a board of directors which includes one representative of each of the nine leading investment managers of the consortium that formed Luminex – BNY Mellon, BlackRock, Capital Group, Fidelity Investments, Invesco, J.P. Morgan Asset Management, MFS Investment Management, State Street Global Advisors, and T. Rowe Price. For more information, visit www.luminextrading.com.
